New Printer Launch at Productronica

After the Hugely successful FL-AVP816 Screen Printer, Folungwin have gone on to develop the Win Printer Series.

The printer has been developed to offer high precision, high repeatability and high performance printing.

With many functions as standard, normally only seen on more expensive machines, this printer is bound for success.

The Win_6 will be exhibited for the first time in Europe at Productronica.

Folungwin Reflow Ovens Offer High Performance and Low cost of ownership

Folungwin offer a full range of High Performance reflow ovens which can cater for any production process.

Taking a dominant position in China in terms of market share compared to their competitors, their range of reflow ovens are field proven.

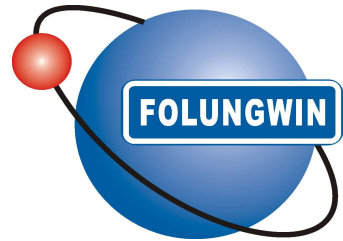

Some of the most promising features would be the *Wonderful Energy Saving Function, Temperature Control Accuracy, Well Maintained Conveyor Parallism, High CPK Value and the Optional Unique Flux Management System* giving a very clean tunnel.

The range offers 8/10/12 Zones top and bottom and 2 cooling zones on the 8 & 10 zone ovens and a group of 4 on the 12 zone oven.

Revised Mistral 360 to be shown at Productronica

This year at Productronica Techno Print will be showing their NEW updated Mistral 360.

Doing away with the VGA monitor, the 4 Zone Bench Top Reflow Oven is now looking more streamlined and has a neat NEW LCD Touch Screen for all controls.

The Mistral 260 and 360 Reflow Ovens are ideal ovens for companies with restricted factory space.

They also carry well up stairs with the help of some strong people!

Also at Productronica we should see the NEW Mistral 460 Reflow Oven.
